

Personal Mention

J. P. Foster was down from Paia yesterday.

Frank Lufkin went to Honolulu Friday night.

Miss Helen Rodriguez was a Kilauea arrival today.

W. A. Lounson was an arrival by the Kilauea this morning.

Mr. and Mrs. George Turner returned from Honolulu Saturday.

Mrs. J. V. Marciel returned Saturday morning from Honolulu.

Mr. and Mrs. W. E. Love were arrivals on the Saturday Kilauea.

C. A. Puck was a Mauna Kea passenger to Honolulu Friday night.

C. D. Lufkin returned Saturday from a business trip to Honolulu.

Mrs. F. L. Hoogs is reported as indisposed at her home in Waikapu.

Supervisor Drummond returned to his home this morning.

Mr. and Mrs. G. C. Munro returned to their home on Lanai Saturday.

Miss Rebecca Akana, health department nurse, is in Honolulu this week.

Mrs. George Lake was a returning passenger from Honolulu this morning.

Mr. and Mrs. H. B. Penhallows were Saturday night arrivals from Honolulu.

D. C. Lindsay made a business trip to Honolulu Friday night on the Mauna Kea.

C. Lufkin will leave on his vacation trip next week on the Wilhelm.

R. A. Drummond came over from Hana for the meeting of the board of supervisors.

John Waterhouse of Alexander & Baldwin was an arrival from Honolulu this morning.

R. A. Judd returned from Honolulu Saturday where he had attended the meeting of high school principals.

P. H. Ross is leaving Friday night and will sail from Honolulu on the next Wilhelm.

C. F. Childs took the Friday night Mauna Kea to Honolulu where he is attending the welfare work convention.

Supervising principal Murphy has been on Molokai visiting the schools with Superintendent of Public Instruction MacCauley.

E. K. Fernandez returned from Honolulu Saturday night. He was called away by the illness of his daughter whose death occurred last week.

Caleb Burns, formerly assistant manager of Waialuku Sugar Co., and now manager of Koloa has been elected president of the Kauai Tennis Association.

George Cummings, who has been suffering from an old injury to his leg which has kept him at home for the past several days is reported as improving.

F. G. Krauss, now of the University faculty, but formerly in charge of agricultural extension work here, has been on Kauai in the interest of University work.

T. B. Linton will leave at the end of the week and take the next Wilhelm from Honolulu for the mainland. His trip will extend to Chicago and he expects to return home early in June.

Mr. and Mrs. George Gibb were passengers for Hana on the Kilauea today. Mr. Gibb going to take the management of Kaeleku Plantation. Manager Schultze has already left Hana.

Miss Ethel Damon has returned to Honolulu after a visit to friends on Maui. She is preparing a work on the "Early Homes of the Missionaries" and expects to return later and make further investigations here.

Study of American History in England Now Being Urged

LONDON, March 11.—(Associated Press Mail).—An appeal for deeper and more systematic study in England of American history and institutions has been made by Dr. George Peabody Gooch, a prominent political author, before the Society of Experience and Research in Education at the University College here.

One reason for the appalling neglect on this side of American history was, he thought, "the deep and ineradicable conviction that American history was dull."

"People here have a sort of idea," he went on, "that when America became independent she didn't concern us any more, and to this day we know more about the American colonial period than about the period of independence."

American literature, Dr. Gooch continued, has been carefully studied here but there were extraordinarily few books by English writers on American history and institutions. While giving due praise to the works of Lord Bryce, Sir George Trevelyan and Lecky he had come to the conclusion he said that English people only read American historians when they were not writing about their own country.

Professor Harold Lascelles, of London University, advocated reforms in the teaching methods at Oxford and Cambridge, contrasting the American system with the English much in favor of the former because, he said, it left something to the student's imagination and stimulated his creative genius.

BANK OF MAUI, LTD.

INSURANCE DEPARTMENT

Pertinent Paragraphs

Receives Fine—Ung Yoon, Chinese, of Waialuku, pleaded guilty in the District Court yesterday morning to having sold okolehao on Wednesday contrary to the provisions made in the National Prohibition Act. Magistrate Mossman imposed a fine of \$100, the costs being remitted.

Makapipi Bridge—Materials for the construction of the Makapipi bridge which is being built by the county have been shipped to Hana and hauled to the site. The work is under supervision of Mr. Agasiz, the county engineer reports, and it is expected forms will be in place within the next two weeks.

To Construct Road—On the petition of William Buck and others the county has authorized the construction of a road from the Wells tract to Vineyard street. The Waialuku Sugar Company by Manager Penhallows and the former owner of the tract have agreed to give whatever land is needed for the improvement. Clearing and grading of about 150 feet of road is involved.

Cottage Contract let—Bids for the building of a jailers cottage with accommodations for juvenile delinquents were opened by the board of supervisors Friday and it was found two of the three bids were in the same amount, those of Kakaia and Brinsmead, that of Savage being higher. Kakaia's bid called for completion of the work in five days less time than did that of Brinsmead and the award was made to him for \$3400.

More Prisoners Wanted—Request is to be made by the county for more territorial prisoners for work on Maui. It is desired to establish a camp beyond Kailua for the upkeep and improvement of roads and trails in that vicinity and at the same time to maintain the camp at the Fair Grounds. The belief was expressed that the high sheriff would be willing to send over the prisoners if the request were made.

Puunene School Site—Approval of the new site for the Puunene school was given by the board of supervisors Friday. It previously had the approval of officials, residents of the Puunene section and the department of public instruction. The site contains about 10 acres is about a mile east of the present school and a preliminary map of arrangement of buildings has been made by the county engineer. Plans for the new building were submitted to the board of supervisors and it is expected bids will be advertised late this month to be opened in June, giving possible bidders ample time to figure.

Cars in Collision—With a front wheel off and a fender torn off a car was towed over the Paia road to Waialuku this morning. It is reported that a car driven by a Filipino was in collision with one driven by a Japanese, Sunday afternoon. The report heard in Waialuku says that Paul Townsley seeing a car approach avoided meeting it on a bridge by stopping. The Filipino is said to have swung out from behind Townsley's car and collided with the machine of the Japanese.

Assessed \$100—Ah Ping was found guilty in Magistrate Mossman's court yesterday morning of violation of the prohibition law and was fined \$100. This was the case in which Judge Mossman had previously held that okolehao contains alcohol in the quantity forbidden by the law and proof of the alcoholic content is unnecessary. Ah Ping denied sale of the liquor and alleged a "frame up." Attorney Murphy says he will appeal.

Alerts to Give Luau—In celebration of their basketball triumphs the Alumni Alerts will have a luau on St. Anthony school grounds next Sunday afternoon at 4:30. Members of the St. Anthony Alumni Association are invited.

Would Stop Leaks—Linesmen in the service of the water departments of the county will be ordered to carry wrenches and tools with them when making meter inspections so as to be able to stop leaks at taps and faucets. This applies especially to the Kula section where it is difficult and expensive to get plumbers and where there is more need of checking waste water than in the Waialuku Kahului District. The subject was discussed by the board of supervisors Saturday when the action was taken. It was felt that steps to check water waste in Kula would warrant the extra work demanded of linemen and the proper officials are instructed to notify them of the new duties.

Fragrant Flowers and Sweet Easter Music In Maui's Churches

Generally large attendance marked the Easter services in the churches of Maui Sunday. In the Episcopal and Catholic churches there were special programs of Easter music arranged and in all of the churches there were charming floral decorative effects. Appropriate Easter sermons were the rule.

At the 11 o'clock service at the Church of the Good Shepherd there was a congregation that filled all the pews and required the placing of chairs in the aisles. At the chancel rail and at about the altar there were great masses of Easter and calla lilies and other white flowers and green blended in the further decorations.

Special music with a special choir was a feature of the service. The choir was composed of Misses Lailani Weight, Payne and Deiner, Mrs. Williamson and Messrs. Weight, Rattray and Lougher. Mrs. Villiers was at the organ. The special numbers rendered were: Chant, "Christ our Passover," Preston; chant, "Te Deum Laudamus," Dupuis; anthem, "Hosanna," Grainer; and anthem "Thanks Be To God," Smallwood, and the selection of hymns was thoroughly appropriate.

Rev. J. C. Villiers took for his topic "Life Hereafter" and drew the lesson that the resurrection of Christ was a demonstration that personality and individuality persisted after what is called death and that Christ still lives.

There were beautiful decorations of lilies in Waialuku Union Church in the evening and a special quartet number by the Messrs. Parsons and Messrs. Frank Crockett and E. E. Pleasant. Rev. Augustine Jones had for his subject "This Is My Son."

At Kahului Union Church the floral decorations were sent over to the church by the masons, beautiful floral crosses which they had used in their ceremonies. Rev. George H. DeKay spoke on the "Two-fold Message of the Risen Christ."

Makawao Church presented a beautiful appearance in the morning. There the Sunday school children had prepared a special Easter service which was full of instruction and beauty. The always excellent music was appropriate to the occasion and greatly enjoyed by the large congregation.

Awards For Work on Kuiaha-Kakipi Gulch Road Work Are Made

Bids for construction work on the Kuiaha-Kakipi Gulch section of the Belt Road, to be constructed from Loan Fund appropriations were opened by the board of supervisors Friday afternoon and awards made which involve the expenditure of \$32,450. This is the road out in the pineapple section that is regarded as one of the most important projects that Maui now has on hand.

Tenders for two jobs in connection with the road work had been sought. Job No. 1 being the construction of an earth road through Lot 10 and including a concrete culvert under a 35 foot fill. For this job J. G. Freitas agreed to complete the job in 70 days and got the contract.

Job No. 2 calls for the macadamizing of 1765 lineal feet of road and the construction of a concrete bridge across Kaupakalua Gulch. Bids could be on two jobs together or for either of them. Haiku Fruit & Packing Co., bid on the road work and on the completed job, 20,700, work to be done in 60 days. No other bid was presented for the macadamizing but there were two for the bridge, P. J. Goodness and Charles Savage. Haiku Fruit Company bid, deducting the bid for the roadwork was lower than either of the two bids on the bridge alone and the award of the whole contract, roadwork and bridge went to it.

The plans and specifications had previously been approved by Lyman H. Bigelow, superintendent of public works.

Nahiku Lands Will Be Sold At Auction

Lands of the Nahiku Rubber Company, about 900 acres in extent, will be sold at public auction by Sheriff Crowell at the Court House Saturday noon and will mark the passing of lands from which once large profits in rubber were expected to new owners and for new uses. While the terms of the sale under the writ of execution, upon which there is due between \$16,000 and \$17,000 will be cash, the purchaser can probably arrange for accommodations through the banks, if they shall be needed.

The lands which are to be sold were the property of the Nahiku Rubber Company and were planted in part to rubber trees, but the venture proved unsuccessful. When the Hawaiian Banana Plantations, Ltd., was formed it was planned to take over those lands as the main plantation of the company for they are considered the best adapted for banana growing of any in the islands, but the plans of that company were afterward changed. Meantime came the confession of judgment on the part of the Rubber Company.

There is now a distinct possibility of the lands being made more accessible at an early date through the extension of the belt road from Kailua on. The last legislature appropriated in the loan fund \$300,000 for the extension of that road and there is now a growing indication that the bonds may be sold and the proceeds made available which was not apparent until recently because of the tight money market on the mainland.

Inter-Island Asked Requirements Before Using Mala Wharf

Requests for information relative to what if any changes the Inter-Island Steam Navigation Company requires or seeks at Mala wharf before making the new structure a regular port of call for passengers have been sent by the Maui Chamber of Commerce to the company. There is a widely spread feeling that if the company can and does use the wharf for loading and unloading freight there can be no reason why it should not also be used for passengers.

The letter of the Chamber is designed to hasten the general use of the wharf and follows:

"Waialuku, Maui, April 14, 1922.

"Inter-Island Steam Navigation Co.

"Honolulu, Oahu.

"Gentlemen:

"As you are aware the Mala Wharf has now been officially accepted by the company. The request is made with the thought that there may be no misunderstanding and that this Chamber may assist in obtaining the necessary changes. We feel that all realize the importance of making Mala a port of call as soon as possible.

"The Chamber takes this opportunity of expression its appreciation for your part towards making the opening ceremonies a success.

"Maui Chamber of Commerce,

"A. W. COLLINS, President."

PENHALLOWS SURPRISED

Mr. and Mrs. H. B. Penhallows were recipients of a pleasant surprise last evening which took the nature of a welcome extended to Mrs. Penhallows on coming to her new home by the higher employees of the Waialuku Sugar Company and their wives and a few others who are closely connected in interest with the company. Mr. and Mrs. Penhallows were married in Honolulu last week on the arrival of the bride from Oakland. At the Lahaina landing they were welcomed by a number of Mr. Penhallows' friends and showered with everything from rice to congratulations and felicitations.

Plans had been carefully prepared for last evening's surprise party. The invited guests met as arranged at Waialuku Town Hall. The men had supplied in the music, a troop of Hawaiian musicians, and the ladies brought the refreshments. At the town hall procession formed, headed by the musicians who played "Hail, Hail, the Gang's All Here," as the visitors proceeded up Wells street to the Penhallows home. Investigating the unusual sounds Mr. Penhallows came out upon the lanai and his surprise was evident.

Taking possession of the house the guests met Mrs. Penhallows and a social evening in which cards and dancing followed.

HANNON-STUEWE

Miss Eleanor Margaret Stuewe became the bride of Joseph Albert Hannon at Kahului on Saturday evening. Rev. George H. DeKay performing the services in the presence of a few of the intimate friends of the contracting parties. Following the ceremony a supper was served the guests at the home of Mr. and Mrs. DeKay and Mr. and Mrs. Hannon took the Kilauea for Honolulu.

Miss Stuewe has been a teacher at Sprecklesville this year and two years ago taught at Puunene, being absent from Maui last school year. During her residence here she has made a large circle of friends.

Mr. Hannon is a time keeper for the H. C. & S. Co. and is one of the best known pianists of the island.

Radio Station About Ready at Presidio

(ASSOCIATED PRESS)

SAN FRANCISCO, April 18.—The army signal corps radio telephone station at the Presidio is practically completed and will be tested soon. It is the most powerful apparatus yet installed on the Pacific and when in full operation is expected will be able to hold conversations with Honolulu, Oahu, and as far east as New York.

PARIS, April 18.—The international radio conference with representatives present from the United States, Great Britain, France and Germany to standardize wireless traffic will resume session at London on April 24th.

STORM HITS DENVER

(ASSOCIATED PRESS)

DENVER, April 17.—This city is tonight in the grip of the worst snow storm it has experienced since the 70s. It started Saturday and is still falling with nine inches on the level.

MARYLAND TOWN BURNS

(ASSOCIATED PRESS)

POKOMOKE CITY, Md., April 17.—Fire which broke out about noon today is still raging this afternoon. Much of the business section of this city has been destroyed and the loss is in excess of half a million dollars.

Bureau for Islands Veterans is Opened

(ASSOCIATED PRESS)

HONOLULU, April 18.—H. P. O'Sullivan has opened the office of the sub-district United States Veterans Bureau and says that an expert on vocational training is on his way to Honolulu to make a survey of conditions and to arrange for the training of those veterans who need it.

O'Sullivan said also that he has recommended that Washington send a "clean up squad" composed of a doctor and claims, vocational training and insurance experts to investigate all cases in the territory. He promises to aid all service men in untangling their insurance and allotments and physical impairment claims.

RUSSIAN BRUTALITY

(ASSOCIATED PRESS)

BERLIN, April 18.—Germans and Hungarians released from Moscow prisons said no changes had been made in the treatment accorded prisoners since the Soviets announced the abolishment of the Cheka, an organization of law enforcers. Prisoners say they have seen naked persons branded with hot irons and others tortured.

AFTER WU PEI

(ASSOCIATED PRESS)

PEKING, April 18.—The American legation is informed that Sun Yat Sen has effected a union with the head of the Canton government and Gen. Chang Tsao Lin, governor of Manchuria, for the purpose of defeating Gen. Wu Pei, leader of the central forces.

SENATE MAKES PLANS

(ASSOCIATED PRESS)

WASHINGTON, April 18.—Senate Republicans in a party conference this morning by a vote of 36 to 9 decided to pass the bonus bill at this session. It was also decided to take up the tariff bill Thursday.

REED "INSULTED"

(ASSOCIATED PRESS)

WASHINGTON, April 18.—Senator Reed, declaring that he has been "personally insulted" by ex-President Wilson, has issued a formal statement in which he says Wilson's memory is shown to be "sadly deficient" by his letter to the St. Louis Globe Democrat saying that Reed had opposed the Federal Reserve Act.

Englishman Propounds A Theory on Dreams

LONDON, March 11.—(Associated Press Mail).—Dr. William Brown mental specialist and head of the department of psychology in King's College, University of London, has propounded a novel theory of dreams. He rejected the claim of the psychoanalysts that dreams are always significant, and that every part of them has a meaning which must be looked for in primitive desires lurking in the subconscious mind. He gave them a much simpler significance.

"The function of a dream is to guard sleep," he said before the Institute of Hygiene. "In sleep desires, cravings, anxieties, the memories of earlier days, all of which are the lower and fundamental elements of the mind, well up and strive towards consciousness while the main personality is in obedience. If they reach consciousness, sleep is at an end, but the dream, which is a sort of intermediary form of consciousness, intervenes, and makes the impulse innocuous so that sleep persists. This theory covers the entire ground of all types of dreams."
